**Jompet Kuswidananto**

Jompet Kuswidananto studied Communication at the Faculty of Social and Political Science of Gadjah Mada University, Yogyakarta. Between 1995-1999 he produced recording albums and performed in several gigs. Visual arts then became the main focus in the years after. Kuswidananto produces installations, videos, sounds, performances and scenographies. In much of his work, the idea of a ghost as a forgotten memory or haunting social presence has given birth to kinetic installations where symbols such as military costume come alive with sound and light.
